

Cold water high pressure washers

ABSOLUTE

Standard accessories

Optional accessories

Features

- Remote control "Safety-Stop" (ST) shuts the machine down after 3' of inactivity or definitively in the event of leaks in the water circuit and/or no water
- The pump and motor are easy to disconnect for all maintenance
- 15 m power cable
- Electric motor: asynchronous, continuous duty, 1400 rpm with automatic Y/Δ ignition
- H.P. crankshaft pump: high performance, mechanical components with low noise

- levels, brass head for a long working life, ceramic pistons, high resistance to wear
- Button to fill the water circuit manual with anti-freeze fluid to avoid the devices freezing if the machine is left outside
- The machine is fitted with two lance holders and hooks for safe lifting
- Easy handling on every kind of surface thanks to the excellent weight distribution, ergonomic handle and large diameter wheels

Pump-motor connection with anti-vibration coupling for low vibrations, improves the reliability and working life of all mechanical components.

Thermostatic valve to protect the pump from possible overheating of the water.

High capacity of self-cleaning filter.
